

SafGuard

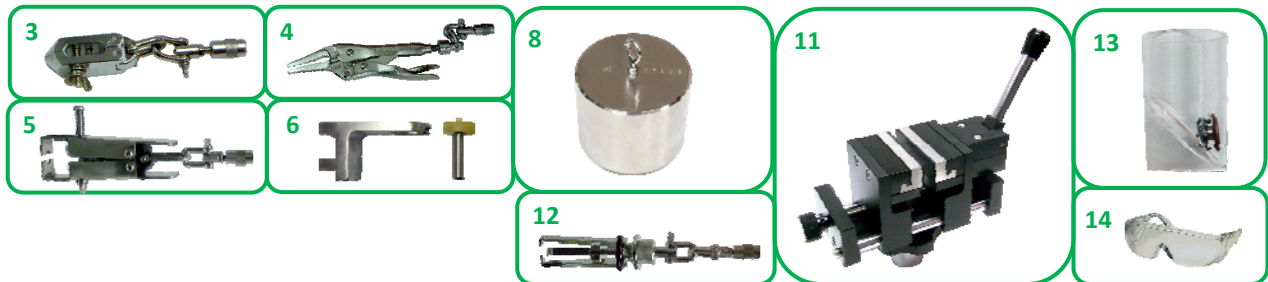

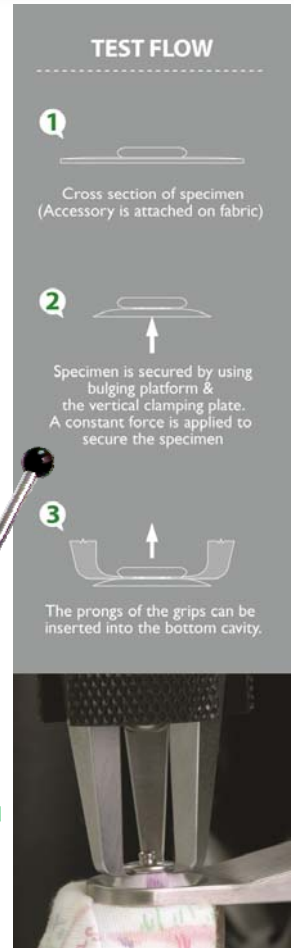

Universal Garment Accessories Tester

This tester provides standard mechanism that increases test capability and repeatability / reproducibility.

After a fabric attached with an accessory is fixed by lower fabric clamp, a small interspace will be formed between the accessory and the fabric. Then, the prongs are inserted and located into the interspace, thus holding the bottom end of the accessory to pull it.

MAINLY CONSISTING OF:

- High Precision "IMADA" Force (Push/Pull) Gauge, Capacity: 0 to 30kg.
- Bench Top Stand with side-operated handle
- **NEW** Upper Tip-Top Grip (STA-0118) to minimize clamping failure & slippage.
- Upgraded Lower Fabric Clamp to provide constant & vertical clamping.
- Calibration Weight 15LB (= 6.82kg) - Offered so that it can be regularly checked if it meets the safety requirements

PACKAGES PROVIDE:

ITEM	PARTS#	DESCRIPTION	MODEL		
			UGA-ST01 (Standard)	UGA-GA01 (GAP)	UGA-HM01 (H&M)
