**QMAX** is the finest and the most functional digitized needle detector in the market for clothing, fashion accessories, garment trimmings, footwear and toys industry meeting all worldwide leading companies' requirement in compliant with their needle control policy.

### **DIGITIZED METAL SIGNAL**

indicates the metal signal level of the product and helps the users meet their buyers' detection requirement with ease. Also, it validates and measures the ferrous signal level of garment trims. It offers much more benefits than those which just indicate either PASSED or FAILED.

### **AUTO PRODUCT LEARN / EASY SETUP**

products can be learnt automatically by pressing a simple button and the optimum settings will be adjusted within seconds. No more complicated procedures. Even easy for beginners.

### **INDIVIDUAL SENSOR(S) MASKING**

offers an exceptional function to deactivate or adjust one or more sensors at our choice in order to tackle special detection issues.
