

Shrinkage Scale & Template

縮水率定位模板

Approved by World Renowned Retailers
meeting international standards

Shrinkage is the change in dimensions of any fabrics or garments after laundering or dry-cleaning.

Shrinkage scale template consists of a fine calibrated shrinkage template which is used to mark fabric with 254mm (10 inches) bench-marks for accurately determining change in fabrics or garments. After the fabric or garment is laundered, dry-cleaned or washed, the dimensional change can be read directly & accurately in percentage (%) change with the calibrated shrinkage scale. The shrinkage scale evaluates shrinkage up to 20% & stretch up to 10%. A sturdy handle helps mark on any type of fabric with ease.

Standard Package (including item 1 - 4):

1. AATCC Shrinkage Template 121-0476-0 Outside: 380x380mm Inside: 254x254mm
2. AATCC Shrinkage Scale 121-0008-0
3. Dalu Textile Marker (non-fadable)
with coarse tip: 121-0272-0 (black)* / 121-0270-0 (yellow)* / 121-0275-0 (red) * (either one *)
