

Seminars & Workshops in Asia

Metal Detection

Presented by **Henri Lui** MBA

Professional Consultant in Metal Detection

HCL Asia Ltd – the business scope covers sales, service, spare parts and training. In addition, we have professional knowledge and experiences in “needle control management” and have organized lots of seminars and workshops in China, Hong Kong and Southeast Asia for many worldwide renowned retailers/buyers and QA professionals for the last decade. Over the last 10 years, Henri Lui, Director of HCL Asia Ltd, has been helping many worldwide leading buyers to establish their needle policy as well as to develop their own code of practice in regard to needle control policy in apparel industry to make their products safer against metal contamination.
